12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

This application is for a geothermal well with a production of 2.1 million gallons per day. The withdrawal will be 3520 acre feet per year, however, the high temperature water would be flashed with the net effect of 210,000 gallons per day being beneficially used and the remaining water returned to the reservoir so only 352 acre feet per year is actually used. This application is comingled with the other applications.

APPROVAL.....OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. If the well is flowing, a valve must be installed and maintained to prevent waste. A measuring device must be installed and measurements of water use kept. The State retains the right to regulate the use of the water herein granted at any and all times.

There are to be no perforations in the well for at least the first 5000 feet. The well is to be cemented from the 5000 foot level to the surface to protect fresh water zones. The total water-steam equivalent to be withdrawn from this geothermal ground water reservoir under Permits 32285 through 35306 is limited to 3520 acre-feet of water annually.

This permit is further issued subject to the condition that the power or energy generated by the beneficial use of this water or steam is subject to recapture and use within the boundaries of the State of Nevada when the need arises.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed.....3.25.....cubic feet per second, but not to exceed 2353 acre-feet annually.

Actual construction work shall begin on or before.....April 6, 1979

Proof of commencement of work shall be filed before.....May 6, 1979

Work must be prosecuted with reasonable diligence and be completed on or before.....April 6, 1980

Proof of completion of work shall be filed before.....May 6, 1980

Application of water to beneficial use shall be made on or before.....April 6, 1985

Proof of the application of water to beneficial use shall be filed on or before.....May 6, 1985

Map in support of proof of beneficial use shall be filed on or before.....May 6, 1985
